Kaung Thant Zaw

Mobile Developer · Android & Flutter

+95 9961 726 261 | kaungthantzaw13@gmail.com | ktzaw13 | ktzaw | Yangon, Myanmar

Summary

Mobile developer with 3+ years shipping production apps in native Android (Kotlin, Jetpack Compose) and Flutter, including a GPS fleet-tracking app on Google Play and a four-app retail ecosystem covering shopping, fulfillment, logistics and loyalty. Strong in REST API integration and Firebase; works closely with backend and QA teams to deliver reliable, user-centric releases.

Experience

07/2025 – now

Mobile Developer, AGB Communication Co., Ltd.

- Maintain and enhance three production apps, working closely with backend teams on API design, real-time data flow and releases.

EV Charging App Kotlin · Native Android · OCPP · WebSocket

- Developed a native Android EV charging app with OCPP protocol support and real-time charger communication over WebSocket.

TuTuGo Kotlin · Native Android · Google Maps SDK

- Built a ride-hailing platform with separate passenger and driver apps, including live map, location and routing features.

Smart Track Client Flutter · Bloc · Background Geolocation

- Developed the client app for a GPS fleet management system, with real-time fleet, asset and vehicle tracking.
- Implemented background location tracking and hardware-triggered SOS alerts; published on Google Play.

07/2023 – 07/2025

IT Coordinator (Mobile Developer), City Holdings Ltd.

- Worked closely with cross-functional backend, QA and product teams in an Agile Scrum environment.

City Rewards Flutter · iOS · Android

- Built a cross-platform loyalty management app from scratch for City Mart, Ocean Supercenters, Seasons Bakery and more.
- Delivered point earning and redemption, multi-card management and exclusive member offers.

City Merchant Flutter · FCM

- Maintained the internal warehouse fulfillment app used by staff for product picking, quality checks and packing.
- Prototyped FCM in Flutter, then developed the Express Notification feature delivering real-time urgent alerts for high-priority orders.

City Mall Online `Flutter · REST APIs · Firebase`

- Maintained the grocery e-commerce app, including mobile payments, order tracking and product catalogs.
- Maintained REST API integrations syncing purchase history and order status, working with QA and backend for reliable checkout.

CMO Logistics Management System `Flutter`

- Maintained the delivery app giving drivers order details, in-app navigation and offline sync for low-connectivity areas.

02/2023 – 06/2023

Intern, City Mart Holding Co., Ltd.

- Completed foundational training across development, QA, DevOps and infrastructure.
- Delivered a ferry management system in 3 months as a team intern project, covering the full SDLC from requirements gathering to testing.
- Built two Flutter apps for the system from scratch and integrated them with backend APIs.

Skills

android	Kotlin · Java · Jetpack Compose · XML layouts
cross-platform	Flutter · Dart · Bloc · React Native
services	Firebase · REST APIs
other	iOS · Clean Architecture · MVVM

Education

10/2026	**Level 5 Diploma in Computing** · KMD Institute
10/2025	**Level 4 Diploma in Computing** · KMD Institute
2017 – 2018	**Coursework towards B.Sc. in Mathematics** · University of Yangon

Certificates

Flutter Advanced: Clean Architecture with MVVM · Udemy
